# Dreer's Wholesale Catalog

## for Florists and Market Gardeners

This wholesale catalog is for the exclusive and specific use of Florists and Market Gardeners who are entitled to the special prices quoted. It contains an up-to-date list of all important varieties including the best of the new ones which have proved outstanding in carefully conducted comparison tests.

The ever increasing number of commercial growers who are selecting Dreer's as their source of supply is definite proof that our policy of "Quality First" has their complete approval. We fully realize that the Florist and Grower must have the finest stocks available and we spare no time, expense, nor effort to bring to the trade carefully selected strains of superior merit.

Dreer quality and reliability linked with Dreer service insure complete satisfaction to you.

### CONDITIONS OF SALE

**PRICES**—Effective Jan. 1, 1943, this catalog cancels all previous offers. The prices quoted in this Wholesale Catalog are net and subject to no trade discounts. We allow a CASH DISCOUNT OF 2% when cash accompanies order or bills are paid within 10 days from date of invoice.

Prices are subject to change without notice.

All goods are offered subject to crop failures, shortages, or other causes beyond our control and to being unsold on receipt of order, and we reserve the right to change prices without notice.

No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia.

If the state to which these goods are to be shipped requires the payment of a sales, use, or other tax on goods purchased from us add the correct amount to your remittance.

**REMITTANCES** should be made by Money Order or Bank Draft in amount sufficient to cover the complete order. Where it is not possible to obtain these, the letter should be registered. We cannot be held responsible for money sent in any other way. **WE DECLINE SENDING GOODS C. O. D.**

If an account is desired please furnish three references, preferably in the trade, with whom you have had credit relations and give us time to investigate.

**NON-WARRANTY**—Henry A. Dreer, Inc., gives no warranty, express or implied, as to the productiveness of any seeds or bulbs it sells and will not be in any way responsible for the crop. Our liability, in all instances, is limited to the purchase price of the seed.

In filling out your order always give **Shipping Directions**, and write **Name and Address Plainly** on every order.

**FLOWER SEEDS** are sent Postpaid.

**VEGETABLE SEEDS** excepting Beans, Peas, and Sweet Corn are sent prepaid. They are forwarded transportation paid anywhere in the United States, we reserving the right to ship by Parcel Post, Express, or Freight.

**ALL OTHER GOODS** offered in this catalog are quoted f.o.b. Philadelphia which means that customer pays transportation charges.

**SHIPPING**—All shipments are made at purchaser's risk, our responsibility ceasing after we deliver in good order to transportation company. Claims for shortages, etc., must be made within 5 days of receipt of goods.

**CANADIAN SHIPMENTS**—Flower Seeds are sent Postpaid. The complicated regulations concerning the shipment of Vegetable Seeds into Canada force us, much to our regret, to decline all orders of Vegetable Seeds from Canada. All other goods are quoted f.o.b. Philadelphia. Recent regulations forbid the importation of many kinds of florist stock, bulbs, corms, tubers, rhizomes, dormant roots, Roses, trees, shrubs, vines, plants, etc.

# All America Selections for 1943

## Silver Medal Awards Petunia

### 3412 America Alldouble

Distinctly different from all other double Petunias,—100% true for double-ness. This is the first of the "Alldouble Petunias" originated in this country to be offered to American gardeners. The plants branch freely but retain a desirable compactness. They grow about a foot tall and make a showy circular cushion 18 in. in diameter. The flowers measure up to 2 1/4 in. in diameter and are an appealing sparkling rose-pink color. The small mid-green foliage has little stickiness. 1/2 tr. pkt. \$1.50; tr. pkt. \$2.50.

## Marigold Dwarf Double French 2944 Sunkist

The plants of this Silver Medal winner greatly resemble those of Butter Ball which was introduced last year. They are of compact, dwarf growth and therefore highly desirable for dwarf beds and borders, yet the individual flower stems are long enough to permit artistic arrangement of the flowers in vases of moderate size. Sunkist belongs to the Harmony type of Marigolds and has attractive double rich orange blooms. Tr. pkt. 40c; oz. \$2.00.

## Bronze Medal Award

### 3308 Petunia, Dwarf Compact Igloo

A delightful new Petunia making dense bushes of neat, compact growth covered continuously with a grand display of flowers from early summer until hard frost in the fall. The individual blooms are only 1 1/2 inches in diameter but they are produced so freely as to cover the plants completely. They are a pleasing creamy white with a more pronounced yellow tint in the throat. Tr. pkt. 50c; 3/32 oz. \$1.50.

## Honorable Mention

### Single Bedding Petunia 3332 English Violet

This belongs to the hybrida nana class and adds a delightful new color to this valuable group—a bright purple-violet of velvety richness, set against a dense mass of bright green foliage which sets off the flowers to good advantage. Tr. pkt. 50c; 1/4 oz. \$2.50; 1/2 oz. \$4.00.

### Cosmos, Giant Sensation 2046 Dazzler

Like the other Sensation Cosmos this new variety exhibits a splendid combination of earliness, vigor, and size of flowers. The well-formed, broad-petaled blooms are an appealing deep amaranth crimson. They measure 3 to 4 inches across. Tr. pkt. 30c; oz. \$1.50.

### Aster 1307 Victory Giant Mixed

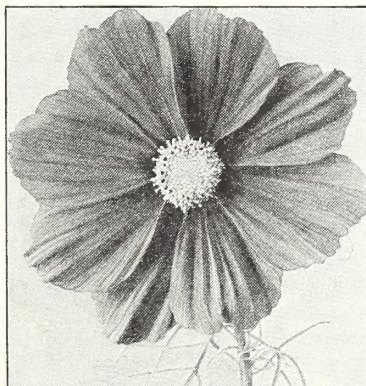

Here is a new class of Asters which as far as the flowers are concerned resemble the California Giants but they start blooming well in advance of that popular type. Includes a splendid range of desirable colors. Tr. pkt. 50c; 1/4 oz. \$1.50; oz. \$5.00.

### Aster 1302 Extra-Early Navy Blue

Elegant large flowers in form not unlike those of the Giant Crego Aster but blooming considerably earlier. The individual flower measure about 4 in. in diameter and are a deep velvety purple with the blooms well displayed on plants. 20 in. tall. Tr. pkt. 50c; 1/4 oz. \$1.00; oz. \$3.50.

# VEGETABLE SEEDS

**for Market Gardeners**

Every successful market grower realizes the tremendous importance quality seeds play in the production of profitable crops. The market gardener who makes his livelihood from the sale of the produce grown cannot afford to sow seeds of doubtful value. He must have highly bred strains carefully selected from vigorous parent plants that show all the typical characteristics of the true variety. They must be full of vigor and vitality to make a sturdy growth from the start. More than three generations of market growers have realized that they can depend on Dreer's to supply them with the finest in Vegetable Seeds.

Our list of varieties includes the choicest strains of all the best standard sorts but we recommend making thorough trials of the many new varieties because they have proved superior in many sections. Higher yields, better quality, and disease resistance are important factors that distinguish many of the newer varieties.

Elsie

## Dwarf Bedding Dahlias for Forcing and the Garden

This new race of dwarf compact plants is excellent for spring forcing in addition to its use for garden decoration. The plants, though decidedly dwarf, bear flowers as large as those found on the old-fashioned giant Dahlias.

Their value for garden planting lies not only in the dwarf compact habit of the plants but also in their free flowering character, the size of the individual blooms, and the many splendid colors available in this type.

- Christine.** Pure white flowers of medium size. Blooms profusely.
- Eleanor.** A real acquisition with an abundance of brilliant orange-crimson flowers measuring 4.5 inches in diameter. The plants seldom grow more than 15 inches tall and they are covered throughout the summer months and until freezing with a profusion of blooms.
- Elsie.** Deep golden yellow passing to rich orange-carmine toward the tips. Of good size and excellent form.
- Gerda.** Very double lilac-rose flowers measuring 5-6 inches across. They are borne profusely throughout the summer and fall. This variety is particularly recommended because of its superior vitality.
- Kate.** Showy bright orange-scarlet flowers of formal contour.
- Maria.** An exceptionally fine bedding Dahlia with showy pure white blooms which are larger and more double than those of Easter Greeting.
- Ruby Mae.** Brilliant carmine-crimson of artistic form; 6 inches across.
- Ursula.** An intense crimson with carmine reverse. Flowers comparatively large.

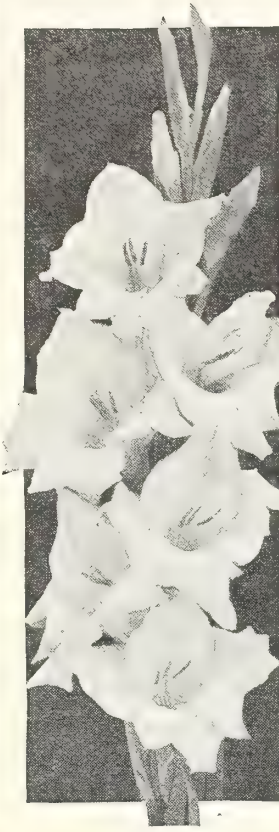

Any of the above:  
28¢ each; \$25.00 per 100.

## Fertilizers Insecticides

At the time of going to press with this catalog no definite information was available in reference to Government-approved mixed fertilizers for florist's and market gardener's use. Just as soon as these become available we expect to be able to supply you with your needs.

The situation in reference to non-poisonous insecticides depending upon rotenone and pyrethrum is fully explained in the adjoining paragraph marked "Important." Whether the available supply of the products we list here will suffice for the coming season or not is a question that cannot be answered now but we are hopeful that even if they do not, other products of equal merit will be available.

**\*IMPORTANT** Before we are permitted by the War Production Board to ship the Rotenone-bearing products as identified by a star, we require your assurance that they will be used exclusively in accordance with the requirements as stated in the certificate given below. Copy the wording of this certificate on your order or securely attach it if given on a separate sheet so that we may be able to ship without delay. "I hereby certify to the War Production Board that the (insert here quantity and name of product) given on this order will be used exclusively for the protection of FOOD crops other than Egg Plant, Onion, Pepper, Sweet Corn, Vine Crops, Cranberries, Tobacco, and Cotton." (Sign your name, address, and give date.)

## Dreer's Improved Hormone-Treated Lawn Grass Mixtures

Dreer's Improved Hormone-Treated Lawn Grass Mixtures are the result of carefully conducted experiments which have given definite proof that this treatment will result in quicker and more plentiful germination of the seed and add considerably to the root development of the young plants which in consequences grow quicker and become established much sooner than is the case with untreated seed.
